

## **G. G. AUTOMOTIVE GEARS LTD. FORGING DIVISION**

A brand synonymous with gears, now brings to you its state-of-the-art dedicated forging unit.

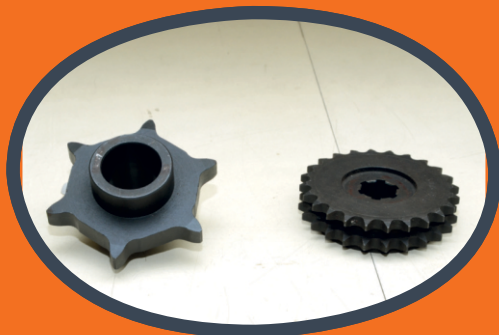

# FORGING SET-UP

Backed by a near total product service capability, the company offers an 'end-to-end' solution right from product conceptualization to testing. Our experience in the gear manufacturing industry allows us to produce forgings with additional finishing processes, while also ensuring shorter lead times for gears & pinions.

GGAG's forging division is equipped to roll out components with a wide range of end user applications - gears, pinions, pinion shafts, couplings, flanges amongst several others catering to the specific needs of the automobile industry.

# INSTALLED CAPACITY OF 300 TONS PER MONTH

- dedicated oil fired furnaces and heat treatment furnaces with capacities ranging up to 500 kg/hour
- metallurgical laboratory complete with microscopes, jomminy test apparatus, pyrometers and chemical composition checks
- team of highly qualified experienced engineers to meet quality standards
- exclusive tool manufacturing set-up for manufacturing fixtures and dies

## INFRASTRUCTURE

### POWER PRESS

**MAKE:**  
**ERFURT,**  
**GERMANY**  
**CAPACITY:**  
**500 TON**

### HAMMER

**MAKE:** HUTA  
**ZYGMUNT**  
**MODEL:** 10000A  
**MPM**  
**CAPACITY:** 3 TON  
**PRODUCT RANGE:**  
10 KG TO 80 KG

### INDUCTION HEATER

**MAKE:** INDO  
**TECH**  
**CAPACITY:**  
**750 KW**  
**CAPACITY:**  
**1200 KG/HR**  
**RANGE:** 100,  
125, 150 RCS

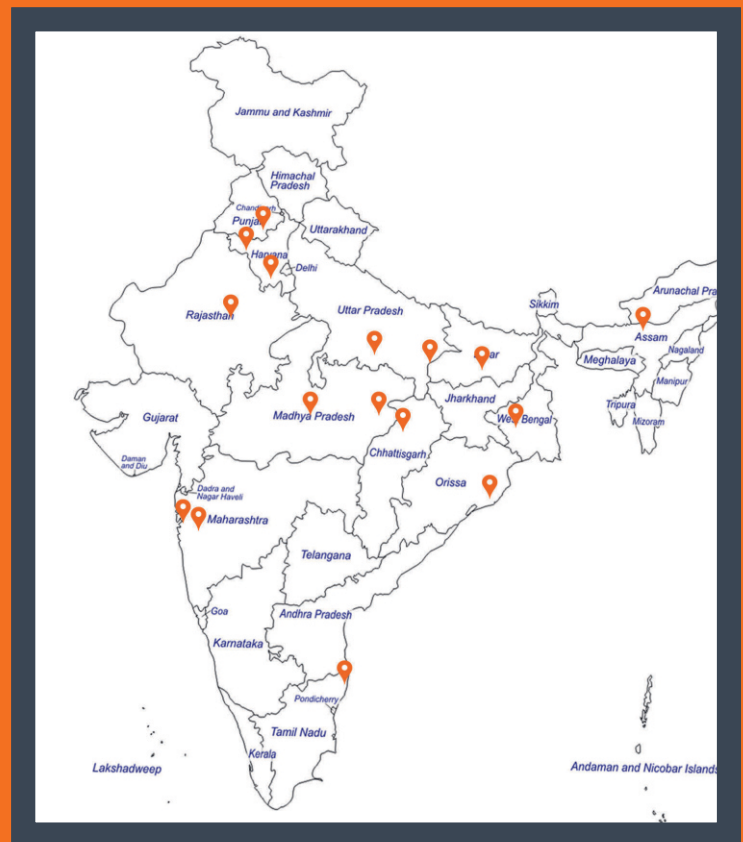

GGAG is an ISO 9001:2015 and OHSAS 18001 certified company. We adhere to global standard processes through our integrated management systems.

# PRECISION ENGINEERING, GUARANTEED & DELIVERED.

## CLIENTELLE

GGAG's largest customer base remains the Indian Railways. We have catered to all the major production units of the Indian Railways, namely CLW, DLMW and DLW. We also produce a lot of components for the zonal and metro railway divisions. Our domestic presence is also strengthened by a number of large industrial giants such as Tata Steel, L&T, Paharpur Cooling Towers, amongst many others.

Over the years, GGAG has built a strong presence in international markets by supplying to industrial heavyweights such as Alstom, General Motors and Penn Machine. GGAG has established its presence in more than 15 countries over the last 40 years, by forging strong partnerships and creating high quality products.
